PROFILE

Driven engineering student seeking to join a forward-thinking organization. Committed to embracing innovation, embracing challenges, and contributing to dynamic projects that drive growth and development. Eager to leverage my expertise in technology to tackle complex problems.

EDUCATION

B.E. Computer Engineering

Parde Conceicao Collage of Engineering

2022-2025

Diploma in Electronics & Communication Engineering

Institute of Shipbuilding Technology

2019-2022

Kendriya Vidyalaya No.1

Vasco, Goa

2018-2019

TECHNICAL SKILLS

- **Programming Languages** : Java, Python
- **Web Technologies** : HTML, CSS, Javascript, Django
- **Database** : SQL, MongoDB

PROJECTS

- **Promptly (Offline AI chatbot)** Jan 2025 – June 2025
Python, Html
 - Developed Promptly, an offline NLP application using Retrieval Augmented Generation(RAG) for accurate and contextual responses.
 - Implemented a retrieval pipeline with vector databases (FAISS/ChromaDB) to enable efficient document search without internet dependency.
 - Built the backend using Python and FastAPI, integrating embedding models for better contextual retrieval.
- **Blood Donation Management System** FEB 2024 – MAR 2024
HTML, CSS, SQL, PHP
 - Developed a Blood Donation Management System to streamline donor management and ensure faster blood request processing.
 - Implemented features for blood request management, donor records, and donation tracking through a user-friendly interface.

INTERNSHIP

Artificial Intelligence Machine Learning

June 2024 – July 2024

- Gained practical experience in **Artificial Intelligence** and **Machine Learning** concepts and algorithms.
- Worked on **real-time projects** applying both **supervised** and **unsupervised learning** methods.
- Developed and evaluated machine learning models using **Python**, **scikit-learn**, and **Pandas**.

CERTIFICATES

- Python Joy of computing using python from NPTEL
- Introduction to internet of things from NPTEL
